OPERATIONS DEPARTMENT

Logistics

New IV kits are in!. These kits contain flushes and extensions along with the standard alcohol preps, 2x2s, tape, tegaderms and tourniquets. Please don't over-stock the cabinets, especially the restock cabinet.

Calling In

Please be sure that if you are going to be absent for a shift it is important that you call the On Duty Captain to make the notification. Text and email are appreciated, but not sufficient. Sometimes the Ops phone is forwarded to a personal cell. This will forward the call, but not a text. Emails are important to document things like Covid, or longer term leave, but the Captain may not get that message in time to know to adjust the schedule. **Ops cell phone: 585-435-0143**

Logistics-

New OPA's are in stock.

Our current IV kits are out of stock. I have made temporary kits to subsite till our new kits come in relatively soon.

I've noticed some ALS bags have been carrying (1) Sodium Bicarb. The ALS bag check sheets do show qty of 1, however that is a typo.

We should be carrying 2. Same goes w/ 1cc, 3cc and 10cc syringes, should be 3, not 4.

All NIBP cuffs on the Tempus's have the new quick metal connectors and hoses have been reduced in length.

Adult BVM's, even though we carry them on the ambulance for DOH purposes, we don't use them. They should not be in the red BLS bags. I found 3 bags with them last week. Only PED size should be in the bags.

New Checksheets

The part 800 rig check sheets have been updated. If you have or are doing a check, please make note of any inaccuracies or suggestions you may have regarding format and bring them to the attention of Capt. Sondhi

BVA Holiday Party!

Our annual holiday party will be held December 8th here at the base. You and your immediate families are invited to have some holiday cheer! The sign-up sheet will be in the kitchen within the next week or two. Please sign up so we know how many will be in attendance and can order food appropriately.

Year-End Information

As we are approaching the end of the year (I know!) please take some time to verify all your payroll information is correct. Look at name, address & social security number. Having this information correct will reduce errors (and potential monetary fines) from the IRS when the year end tax documents are created.
